1. STUDY TEAM - ANIMAL CARE COMMITTEE

* 1.1.

Please select the Principal Investigator (PI) for the study. The PI is responsible for all aspects of the work conducted under this protocol. Once you hit "Select", you can enter the PI's name, or enter the first few letters of his or her name and hit "Go". You can sort the returned list alphabetically by First name, Last name, or Organization by clicking the appropriate heading.

[Select...]

Primary Appointment: Medicine, Faculty of
Rank: Professor
Animal Care Training (Online) Certificate Number:
Animal Care Training (Practical) Certificate Numbers:

Begin by selecting the Principal Investigator. If you have previously held a PI role, this field may automatically be populated with your name.

The Principal Investigator must have a Faculty Appointment (i.e. Professor, Associate Professor, Assistant Professor, Adjunct Professor, Clinical Professor, Clinical Associate Professor, Clinical Assistant Professor, Professor (PT), Associate Professor (PT), Assistant Professor (PT), Professor Emeritus/a, Associate Professor Emeritus/a, Assistant Professor Emeritus/a). This includes Clinical Faculty appointments in the Faculty of Medicine. If this is a Teaching protocol, please list the Principal Supervisor.

If you cannot see your name in the Principal Investigator list and you are the Principal Investigator of the study, please contact the Office of Research Services at risesupport@ors.ubc.ca.

1.2.

Provide the name of ONE primary contact person in addition to the PI who will receive ALL correspondence regarding this application. This primary contact will have online access to read, amend, and track the application.

[Select...]

Selecting a primary contact is optional. If a primary contact is not selected, the PI will be the only person to receive all correspondence.

The certificate of approval and notifications regarding the application will be emailed to this primary contact in addition to the PI.

Complete sections 1.3, 1.4 and 1.5 to add Co-Investigators and study team members directly involved in the care and use of animals in this study and designate their access for this study.

To add Co-Investigators in 1.3 and study team members in 1.4 and 1.5:
1. Click "Add".
2. Enter the name or enter the first few letters of the person's name and click "Go".
3. You can sort the returned list alphabetically by First name, Last name or Organization by clicking the appropriate heading.
4. Select the boxes beside ALL applicable names and click "OK".

To delete a person from the list, select the box next to his or her name and click "Remove".

Guidance Notes are located in the boxes to the right of the application form. They include detailed explanations of the questions, instructions on how to fill out the form and useful links to documents and contacts.

1.3 Co-Investigators:
List all Co-Investigators of the study. These members WILL have online access to read, amend and track the application.

[Add]

Last Name	First Name	Institution/Department	Rank	Online Training	Practical Training

There are no items to display

1.4. Study Team Members - Online Access

List all study team members who WILL HAVE online access to read, amend and track the application. All study team members must list online training and study team members that have "hands on" contact with animals must list practical training and their role in the study must be defined in section 4.10.

[Add]

To meet the Canadian Council on Animal Care (CCAC) requirements, the online animal care training program is compulsory. If you are involved with animals in research, teaching, or testing, you must be trained in animal care and ethical issues involved in animal use. If you have completed this training, please update your RISe profile. If you have not, please select here to register. If you have taken any practical courses offered through the Animal Care Centre, please ensure that you update your RISe profile (practical animal care training section). Certification of completed/passed practical training course is required for any individual that has "hands on" contact with animals. The role of each study team member in the study must be defined in section 4.10.

If this is a Breeding application, please ensure the Colony

4. ANIMAL INFORMATION, PROCEDURES, JUSTIFICATION - ANIMAL CARE COMMITTEE

View 4 collects animal information, procedures and justification.

* 4.1.a.

Guidance Notes ≪

Objectives of Research

Research Applications: Describe how you would explain to a non-scientist, the aim, specific objective(s) and potential value of your study with respect to human or animal health, the advancement of knowledge or the good of society. Briefly describe the relationship of the animal studies to the overall objectives of your research. DO NOT exceed 500 words.

Teaching Applications: State why animals must be used in the laboratory/project. If alternatives to animals are available, indicate why they cannot be used in this instance.

* 4.1.b.

As well, please briefly describe in simple language the procedure(s) performed so that the Community Members reviewing this section understand what is being done to the animals. Please do not submit the abstract from your funding application. The summary should provide the requested information in lay terms, so that someone who is unfamiliar with your work will be able to appreciate what you do. DO NOT exceed 500 words.

4.2.

Guidance Notes ≪

Alternatives to animal use. What alternatives to the use of live animals have been considered? What reasons did you have for rejecting them? If specific alternatives do not exist, this should be stated or justified appropriately.

5. ANIMAL MONITORING - ANIMAL CARE COMMITTEE

View 5 collects information about animal monitoring.

5.1.   Guidance Notes ≪

Please specify FOR EACH STUDY/SURGERY/PROCEDURE:

1. what specific clinical signs or objective parameters will be monitored to assess animal health
2. the frequency (number of times per day) and duration (number of days) that animals will be monitored

Please specify whether monitoring is conducted by study team members, facility staff or both. If monitoring is not necessary/applicable, this should be stated and explained.

For Categories of Invasiveness D & E and a subset of C, monitoring records are required. Please attach monitoring/scoring records that are to be filled out during the study. These should include humane endpoints.

[Add]

name	description
There are no items to display	

5.2.   Guidance Notes ≪

Describe each experimental endpoint for the studies described in this protocol. The explanation should incorporate time and/or condition (such as tumour size or time point following treatment). Death of the animal is not an acceptable endpoint. Experimental endpoints need to be specified for each study or procedure.
Please also indicate the MAXIMUM AGE of the animals at Experimental Endpoint (e.g. in weeks, months or years).

Departmental Approval

Listed below are the signing authorities that can approve this application, based on your appointment(s). Please select from the list which signing authority you would like your application sent to for approval. **If you have a UBC and a hospital appointment, the application must be sent to the UBC department for approval.** If an appointment is not showing, please update your profile by clicking here.

[Medicine, Department of ▾]

Declaration:

I, the Principal Investigator, assure that all animals and invertebrates used in this proposal will be cared for in accordance with the principles promulgated by the Canadian Council on Animal Care and the University of British Columbia. I agree to emergency veterinary care by the University Veterinarians if there is evidence of pain or illness. As well, all people using animals under my direction have been trained to use appropriate methods and have read and agreed to comply with this application.

If you have finished filling out your application, select OK to submit the application. After you select OK you will no longer be able to edit the application. You will receive email when approval is granted or refused, changes are required, or provisos are requested.

Agreeing to the declaration above by selecting OK to submit is equivalent to your signature.

Once you submit this application, the department selected above will be notified.

If you are not ready to submit your application, click **Cancel**.
