1. STUDY TEAM

* 1.1. Principal Investigator

Please select the Principal Investigator (PI) for the project. Once you hit "Select", you can enter the PI's name, or enter the first few letters of his or her name and hit "Go". You can sort the returned list alphabetically by First name, Last name, or Organization by clicking the appropriate heading.

Select...

Primary Appointment: Arts, Faculty of
Rank: Professor
Course Date:

Begin by selecting the Principal Investigator. If you have previously held a PI role, this field may automatically be populated with your name.

The Principal Investigator must have a Faculty Appointment (i.e. Professor, Associate Professor, Assistant Professor, Adjunct Professor, Clinical Professor, Clinical Associate Professor, Clinical Assistant Professor, Professor (PT), Associate Professor (PT), Assistant Professor (PT), Professor Emeritus/a, Associate Professor Emeritus/a, Assistant Professor Emeritus/a). This includes Clinical Faculty appointments in the Faculty of Medicine.

If you cannot see your name in the Principal Investigator list and you are the Principal Investigator of the study, please contact the Office of Research Services at risesupport@ors.ubc.ca.

1.2. Primary Contact

Provide the name of ONE primary contact person in addition to the PI who will receive ALL correspondence regarding this project. This primary contact will have online access to read, amend, and track the application.

Select...

Selecting a primary contact is optional. If a primary contact is not selected, the PI will be the only person to receive all correspondence.

The certificate of approval and notifications regarding the project will be emailed to this primary contact in addition to the PI.

1.3. Co-Investigators

List all personnel working on this project who WILL have online access to read, amend and track the application. Once you hit "Add", you can enter the member's name, or enter the first few letters of his or her name and hit "Go". You can sort the returned list alphabetically by First name, Last name by clicking on the appropriate heading. To delete a member from the list below, select the box next to his or her name and hit "Remove".

Last Name	First Name	Institution	Rank	Biosafety Course Certificate Number
There are no items to display				

Guidance Notes are located in the boxes to the right of the application form. They include detailed explanations of the questions, instructions on how to fill out the form and useful links to documents and contacts.

If animals are to be used, the head of the animal housing unit must be included in this section.

Please make sure you have added yourself as either the Principal Investigator, primary contact, or a project team member in order to continue with the application. If you do not see your name or any of your associates' names in the list, please have them added or inform them to add themselves by contacting the Office of Research Services at risesupport@ors.ubc.ca with their particulars (name, department, rank, email, UBC employee number (if applicable), and phone number). Once added to RISE, the new user will receive an email with his or her researcher number.

1.4. Project Team with Online Access

Last Name	First Name	Institution/Department	Rank	Biosafety Course Certificate Number
There are no items to display				

The Biosafety Course, offered through Risk Management Services, is compulsory. Please update your profile on RISE with the completion date. If the course has not been completed, please have personnel register through <http://www.riskmanagement.ubc.ca/courses> (Vancouver Campus) or <http://www.ubc.ca/okanagan/hse/register.html> (Okanagan Campus).

1.5. Project Team without Online Access

List all personnel who WILL NOT HAVE online access to the application. To delete a member from the list below, select the box next to his or her name and hit "Delete".

Last Name	First Name	Institution/Department	Rank/Job Title	Biosafety Course
There are no items to display				

The personnel listed in this section do not have online access to RISE. Please print off the application and ensure that each member listed in this section has read and understood the objectives and procedures of this project.

The Biosafety Course, offered through Risk Management Services, is compulsory. Please enter the course completion date for all personnel. If the course has not been completed, please have personnel register through <http://www.riskmanagement.ubc.ca/courses> (Vancouver Campus) or <http://www.ubc.ca/okanagan/hse/register.html> (Okanagan Campus).

* 1.6. Project Nickname

Nickname of the Project. What would you like this project to be known as to the Principal Investigator and Project Team?

The name entered here will be what the project is known as on your home page, to the Principal Investigator and the Project Team. This title will not be printed on the certificate.

Continue >>

2. STUDY DATE AND FUNDING

2.1. Start Date

What is the Start date of this Project? Use the calendar box to select the date (Internet Explorer) or enter the date manually using the format **yyyy-mm-dd**

Start Date:

Whenever you encounter questions that require you to input a date, please use the calendar icon to select your dates as it will ensure the proper formatting of your entry.

2.2. Title of Project

If there is no research funding application associated with this project, please enter the title of the project below. If there is an associated research application with this project, please proceed to question 2.3.

Source of Funds

Clearly identify the application for research funding associated with this biosafety project. This will ensure that awarded research funds can be made available to you once this project receives approval.

2.3. Research Funding Application/Award Associated with the Project Submitted to the UBC Office of Research Services

Please click "Add" to identify the research funding application/award associated with this project. Selecting "Add" will list the sources of all research funding applications that have been submitted by the PI (and the person completing this application if different from the PI). If the research funding application/award associated with this project is not listed below, please enter those details in question 2.4.

Add

UBC Number	Title	Funding PI	Sponsor
There are no items to display			

Question 2.3 lists the research funding applications/awards that have been submitted to the UBC Office of Research Services and entered into our database. Identifying the associated research funding application/award will ensure that awarded research funds will be made available to you once this biosafety application receives approval.

Please ensure you select the correct application. Note that the first two digits of the application number indicate the year the application was submitted (eg. Application #06-0001 was submitted in 2006).

A fee of \$300 will be charged for applications requiring review by the UBC Biosafety Committee that are funded by a for-profit agency. The fee is a one-time-only fee for each specific application and covers initial review, annual renewals, and minor amendments for the next four years.

2.4. Research Funding Application/Award Associated with the Project not listed in question 2.3.

Click "Add" to enter the details for the research funding application/award associated with this project that is not listed in question 2.3.

Add

Project Title	Sponsor
There are no items to display

3. STUDY OVERARCHING CATEGORY

Note for applicants:

- If you are using both RG1 and RG2, only a RG2 application needs to be filled out.
- If you are using plant pathogens then please fill out an RG1 application.
- Use the provided Environmental Hazard Tool, to determine if your organism is considered an invasive plant, plant pest, or aquatic pest.

Genetically engineered organisms are defined as:

- the plant, animal or microorganism exhibits characteristics that were not previously observed in that plant, animal or microorganism,
- the plant, animal or microorganism no longer exhibits characteristics that were previously observed in that plant, animal or microorganism, or
- one or more characteristics no longer fall within the anticipated range for that plant, animal or microorganism.

* Please select the Overarching Category for this study

- RG1 (microorganisms, cells, genetically modified RG1)
 - RG2 (Biohazardous materials, including toxins)
 - RG3 (Biohazardous materials)
 - Environmental hazards (invasive plants, plant pests, aquatic pests, plants with novel traits, and genetically engineered organisms – that are not classified as RG1, RG2 or RG3)
 - Teaching Labs (all biological)
- Clear

Select the appropriate overarching category by clicking the radio button to the left.

List of Shared Research Facilities

Please list the research locations where work will be occurring in a centrally run research facility such as an animal unit, containment level 3, or imaging facilities.

 Add

Housing Location

View 3 collects material and procedures information.

3. MATERIAL INFORMATION, PROCEDURES

*** 3.1. Objectives of Research**

Describe how you would explain to a non-scientist, the aim, specific objective(s) and general experimental approach. Please do not submit the abstract from your funding application. The summary should provide the requested information in lay terms, so that someone who is unfamiliar with your work will be able to appreciate what you do.

*** 3.2. Summary of Methodology and Procedures**

The Reviewers will be looking for the following information:

- Short procedure or methodology name
- Brief description
- Risks of the procedure or methodology
- PPE needed
- How risk is mitigated (administrative and engineering controls)
- Decontamination of materials, surfaces, and waste (indicate the RMS autoclave room being used)

Please attach additional documents if required below by selecting the "Add" button.

Add

Title

There are no items to display

*** 3.3. Recombinant Viral Vectors (RG1 only)**

Does this project involve recombinant viral vectors (RG1 only)?

Yes No [Clear](#)

*** 3.4. Genetically modified organisms (RG1 only)**

Tracking genetically engineered organisms has always been

3.2 - Cut and pasting methodologies from grant applications is not sufficient.

Example:

Mouse cell culture

- Stable mouse cell lines from ATCC will be grown up and treated with several chemicals. The cells will then be lysed and ELISAs and Western Blots performed.
- Minimal risk from the cell lines, and once lysed they are no longer considered biohazardous.
- Lab coat, long pants, full covering shoes, nitrile gloves.
- Individuals will receive training in aseptic techniques and proper usage of equipment. A BSC will be used for all tissue culture work.
- All solid waste will be placed in clear bags and autoclaved at 121 degrees for 1hour. Bleach will be added to liquid waste, to make a final 10% solution, for 30min. It will then be neutralized and poured down the sink.

to make a final 10% solution, for 30min. It will then be neutralized and poured down the sink.

*** 3.3. Recombinant Viral Vectors (RG1 only)**

Does this project involve recombinant viral vectors (RG1 only)?

Yes No [Clear](#)

If you select "Yes" you will be taken to View 4 to enter Recombinant Viral Vectors information. Otherwise, you will not pass through the View 4.

*** 3.4. Genetically modified organisms (RG2 only)**

3.4.1. This project uses non-pathogenic *E. coli* with non-hazardous gene alterations

Yes No [Clear](#)

*** 3.4.2.** This project uses genetically altered animal cell.

Yes No [Clear](#)

*** 3.4.3.** This project uses other methods and/or organisms?

Yes No [Clear](#)

Tracking genetically engineered organisms has always been required, but will now be specifically tracked using RISE. Due to their minimal risk we are excluding detailed lists for non-pathogenic *E. coli*, *S. cerevisiae*, *Arabidopsis*, *Chlamydomonas*, *Populus*, and transgenic mice. If there are other organisms that should be excluded, please contact Stephanie Thomson (stephanie.thomson@ubc.ca).

*** 3.5. Recombinant DNA**

3.5.1. Does this project involve Recombinant DNA?

Yes No [Clear](#)

*** 3.5.2.** Do you receive funding from the United States?

Yes No [Clear](#)

If this is a US funded Recombinant DNA study (both answers are "Yes"), you will have to fill in specific information on View A. Otherwise, you will not pass through View A.

*** 3.6. Inventory**

Add

Type of Biological Material	Host Range	Biological Material	Species/Source/Common Name	Other Information	Building	Room Stored	Room Used	Containment Level
-----------------------------	------------	---------------------	----------------------------	-------------------	----------	-------------	-----------	-------------------

There are no items to display

3.6 – The Committee and HPTA requires an inventory of what and where materials are stored be kept on file. This inventory may be requested by the Committee for inspection during facility audits.

If the facility or organisms you are using is not listed, please contact the Biosafety Committee at biosafety@ors.ubc.ca.

Appropriate containment levels can be found at the Public Health Agency of Canada website by clicking [here](#).

Please note, the containment level is dependent on **both** the procedures to be used and the organism.

To save information on each view as you are working, especially if you are working on the view for a long period of time, select the "Save" button located at the top OR bottom of the view in the blue bar. Your work on each view will automatically be saved once you hit the "Continue" button.

View 4 collects information about Recombinant Viral Vectors.

*** 4.2.**

What is the Genus/Species and assessed risk of the backbone vector? What is the Genus/Species and assessed risk of the envelop vector or gene? What is the intended target or host (in vitro and/or in vivo) and the assessed risk or risk group? Is the recombinant virus permissive in the intended target or host? Any other applicable information

Attach any in-lab replication competency testing results.

4.2 -This section applies to all recombinant viral vectors.

*** 4.3.**

Describe the genetic or molecular "cargo" the vectors are designed to carry (e.g. reporter genes, cDNAs, siRNAs, etc.)

US funded Recombinant DNA

* 1. Give specific reference for your experiment from the NIH Guidelines for Research Involving Recombinant DNA Molecules (e.g. Section III-D-4-a).

View A collects information for US funded Recombinant DNA studies.

The NIH Guidelines can be accessed at http://oba.od.nih.gov/rdna/nih_guidelines_oba.html

* 2. Indicate and describe which of the following applies to this project.

- a. Construction and/or use of synthetic DNA/RNA (e.g. probes, DNA or RNA oligonucleotides)
- b. Creation of c-DNA/genomic libraries
- c. DNA/RNA sequencing
- d. Use of recombinant or synthetic DNA/RNA in microorganisms that are exempt under NIH Guidelines, Section III-F
- e. Use of recombinant or synthetic DNA/RNA in non-exempt microorganisms
- f. Use of recombinant or synthetic DNA/RNA in animals including insects, nematodes, and mammals
- g. Use of recombinant or synthetic DNA/RNA in cell culture
- h. Potential for toxic products to be produced/released from recombinant cells or animals. The definition of toxic is an agent with an LD50 of less than 100 nanograms per kilogram (ng/kg) body weight
- i. Potential for infectious agents to be produced/released from recombinant cells or animals

* 3. Indicate and describe which of the following genes influence the following for this project. Note: for research involving a large number of genes not yet identified, list the categories or general function of the genes.

- a. Release of biological toxins (NIH Guidelines, Section III-B-1 and Appendix F)
- b. Antibiotic/herbicide resistance (NIH Guidelines, Section III-A)
- c. Increase of tropism (NIH Guidelines, Appendix B-V)
- d. Increase of virulence (NIH Guidelines, Section II-A-3)
- e. Are known oncogenic or tumour suppressor genes (review the [Cancer Gene Census](#) and the [Mouse Retrovirus Tagged Cancer Gene Database](#))

6. ETHICS

* 6.1. Human Ethics

6.1.1.

Is any human tissue, blood (or other potential infectious material) or body fluid used for this project?

Yes No [Clear](#)

If "Yes", complete the following questions in 6.1.

6.1.2.

Provide the Ethics Certificate Number(s) below.

6.1.3.

What is the source of human tissue, blood or fluid?

View 6 collects ethics information.

Please specify the source of human tissue (e.g. primary source, purchased from approved vendor, etc.)

* 6.2. Animal Ethics

6.2.1.

Are animals used for this project?

Yes No [Clear](#)

If "Yes" please complete the following questions in 6.2.

6.2.2.

Provide the Animal Care Application Number(s) below

6.2.3.

Have all animal care staff been made aware of any precautions required to protect themselves when dealing with animals and handling bedding?

Yes No [Clear](#)

6.2.4.

If animals are exposed to the biohazard agents listed in this project, click the "Add" button to specify the agent and route of exposure.

SAVE AND CLOSE APPLICATION

You have reached the end of the Biosafety Application.

OPTIONS

1) submit application (PI only) - click the "Continue" button and "Submit application" on the next page. **NOTE: the "Submit application" button is only visible to the PI.**

2) work on this application later - click the "Continue" button. Your application will be in "Pre Submission" and saved in your inbox.

Submit Application

Departmental Approval

Listed below are the signing authorities that can approve this application, based on your appointment(s). Please select from the list which signing authority you would like your application sent to for approval. **If you have a UBC and a hospital appointment, the application must be sent to the UBC department for approval.** If an appointment is not showing, please update your profile by clicking [here](#).

Medicine, Department of

Select the appropriate department for the review and approval of your application.

Declaration:

I accept responsibility for ensuring that work in the laboratories will be conducted in accordance with the University of British Columbia Policies and Procedures, Biosafety Practices and Public Health Agency of Canada guidelines, and have informed all personnel who may be at risk.

*** Please confirm that all associates listed on this project have read and agreed to comply with this project.**

Yes No [Clear](#)

Confirm all associates listed in project have read and agreed to comply with the project.

An amended form will be submitted if there are any changes to the methodology which would increase the bio-hazard risk.

If you have finished filling out your application, select OK to submit the application. After you select OK, you will no longer be able to edit the application. You will receive email when approval is granted or refused, changes are required, or provisions are requested.

Agreeing to the declaration above by selecting "OK" below to submit is equivalent to your signature.

Once you submit this application, the department selected above will be notified.

If you are not ready to submit your application, click "Cancel" below.

Click "Ok" to send your application.
